SSC-3X SOLDER SIDE COVERS™

Solder Side Covers for Hot Swappable PCBs

- Meets Bell Core GR-1421-CORE, EIA 541, UL 94V-0 and MIL-PRF-81705D
- Full protection for the Solder Side of PCBs
- ESD dissipative PVC provides protection from accidental ESD and accidental contact with solder sides of PCBs
- 3U and 6U standard sizes
- Custom punched or application specific protection available (subject to minimum order and quotation)

SSC Series was introduced in 2000 to meet the emerging hot swapping and removable PCB requirements. Manufactured from AntiStat® certified material, the SSC series easily mounts to existing PCBs via four small screws at the corners of the PCB. For more information on Compact PCI® visit us online at www.bivar.com/cpci

Mounting Information:

Four #4 size panhead screws provided with each Solder Side Cover
Hole Size: 0.xxx +0.000 / -0.000

Material Specifications:

Mirrex 7002 AntiStat® UL Rated 94V-0 PVC Film
Bell Core GR-1421-CORE
EIA-541
MIL-PRF-81705D
ESD Association ADV2-0-1994 @ 12% Humidity
Oxygen Index: +28% [UL File #E52297](#)

Application Notes:

Additional configurations and custom punched through holes and slots are available. Contact Bivar at 1-800-SPACERS for additional information or use the Design Your Own work sheets on page 13.

Note: there are only two standard part numbers:

6U = SSC-36
3U = SSC-33
