

## DC-DC CONVERTERS

### MAIN FEATURES

- Power range: 2 to 25W for current models; design capability up to 300W.
- SMD and thick film technology utilized to shrink size and enhance reliability
- Designed with derating to enhance reliability.
- High efficiency: 70% for 10W power models. 80% or above for higher power models.
- 100% burn-in.
- 200% computerized functional test before and after burn-in.
- 100% tested for dielectric withstand.
- MTBF: 500khrs typical.
- A wide range of standard products are provided. Semi-standard or OEM design are also acceptable.
