## JANTX, JANTXV POWER DUAL RECTIFIERS IN A TO-254AA PACKAGE QUALIFIED TO MIL-PRF-19500/642

50V Thru 200V, 12A, Dual, Common Cathode or Common Anode Center-Tap Ultra-Fast Rectifiers

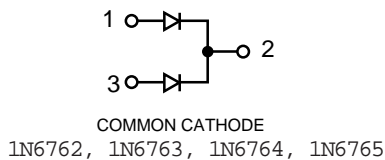

### FEATURES

- Center-Tap Configuration
- Isolated and Hermetically Sealed
- Ultra-Fast
- Low  $V_F$
- Qualified to MIL-PRF-19500/642

### DESCRIPTION

This hermetically packaged QPL product features the latest silicon and packaging technology. It is ideally suited for Military low voltage rectifier requirements where small size, high performance and high reliability are required, and in applications such as switching power supplies, motor controls, inverters, choppers, audio amplifiers and high energy pulse circuits.

### SCHEMATIC

### MECHANICAL OUTLINE

Note: "R" at end of Part Number Designates Common Anode
