DESCRIPTION:

The CENTRAL SEMICONDUCTOR CZSH10-40CN is a dual common cathode 10 Amp surface mount silicon Schottky rectifier package in a SOT-223C case. The new SOT-223C case has a cut center lead for optional mounting pad connection of the two anodes for use as a single 10 Amp device. This device has been designed for use in all types of commercial, industrial, entertainment, computer and automotive applications, which require a high current device.
