

Aircraft Navigation and Anticollision Lamps

DESCRIPTION AND FEATURES

These unique lamps are purpose built to provide the high light output and specified light distribution patterns required in both commercial and private aircraft. These high quality lamps feature unsurpassed durability and consistency for today's demanding aircraft requirements. All lamps carry the Federal Aviation Administration's (FAA) Parts Manufacturer Approval (PMA) providing installation eligibility on all applicable aircraft.

Part Number	Design Voltage	Design Wattage	Globe Type	Average Life (hrs)	Light Distribution Per	Configuration
CM16870	6.2	40.0	GG 12A	150	MS 25338	A
CMA-7079B-24	28.0	40.0	GG 12A	150	MS 25338	A
CMA-7796A-24*	28.0	14/40	GG 12A	300/150		A
CM11631	6.2	40.0	GG 12B	300	MS 24513	B
CM626**	6.2	40.0	GG 12B	300	MS 24513	B
CMA-4174-24	28.0	40.0	GG 12B	300	MS 24513	B
CMA-4174-24X**	28.0	40.0	GG 12B	300	MS 24513	B
CMA-7512-12	14.0	26.0	GG 10	300	MS 25309	C
CM1512	14.0	21.0	GG 10	300		C
CM628	26.5	26.0	GG 10	300		C
CMA-7512-24	28.0	26.0	GG 10	300	MS 25309	C
CM1524	28.0	21.0	GG 10	300		C

* Dual Filament Lamp
 ** Lamp is produced with a nickel center contact
