

# RCY CONNECTOR

Disconnectable Crimp style Wire-to-wire connectors

**The RCY connector is a compact, 2.5mm (.098") pitch wire-to-wire connector for use with a variety of circuits, from signal circuits to power supply circuits, in electrical equipment which is becoming more and more compact. The employment of a free spring contact method ensures stable contact performance, and superb working efficiency of insertion and removal.**

## Features

### • Use of a free spring contact for superb creep characteristics

The contact section features a free spring contact construction, which effectively minimizes stress (creep) caused by repeated insertion and removal at high temperatures. Connector insertion and removal is also smooth, ensuring stable connection performance.

### • Compact design

The RCY connector is designed to be compact. When mated, its overall length is just 23.3mm (.917") and its thickness is 4.0mm (.157").

### • Housing lock

Because a lock is provided inside the housing, external force is not applied to the lock.

## Specifications

- Current rating: 3A AC, DC max.
- Voltage rating: 250V AC, DC max.
- Temperature range: -25°C to +85°C  
(including temperature rise in applying electrical current)
- Contact resistance: Initial value/10m max.  
After environmental testing/20m max.
- Insulation resistance: 500M min.
- Withstanding voltage: 1,500V AC/minute
- Applicable wire: AWG #28 to #22  
0.08 to 0.33mm<sup>2</sup>
- \* Contact JST for details.

*Note: The current rating varies depending on the number of circuits and the wire size used in each connector. The table below lists the current rating as a function of the number of circuits and wire size.*

Current unit: A

Circuits	Wire size (AWG)			
	#22	#24	#26	#28
2	3	2	1	0.5

## Standards

Recognized E60389
